Corporate Brochure

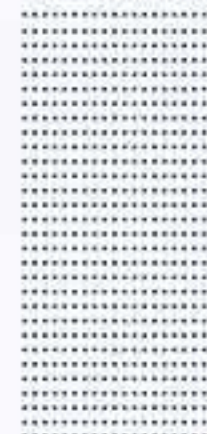

Who We Are?

Why We Work?

CorpLine® Dynamic Solutions is a software and internet technologies company that started its operations in the first quarter of 2013. Firstly, CorpLine started its activities in Kocaeli, the second largest industrial city of Turkey, and in 2019 CorpLine® Software Information Services Ind. and Trd. Ltd. Co. was restructured. In this process, it moved its headquarters to metropolitan Istanbul, Turkey's largest city. Today, it continues its activities uninterruptedly in Buyaka Business Towers.

From the first day until today, our biggest goal is to produce global technologies and solutions that appeal to human benefit. While doing this, our priority is to use methods that respect nature, the environment and people. We are working on efficient solutions that mean going forward for humanity. We now believe that urgent options must be created for our future. We will continue to do our part in this regard, 24 hours a day, 7 days a week, 365 days a year.
